Mobile: +91 9905109889

Skills

- **Languages**: C++, Java, SQL
- **Technologies:** React.js, Node.js, Express.js, Tailwind CSS, MongoDB
- **Tools/Platforms**: VS Code, Android Studio, GitHub, Docker
- **Soft Skills**: Problem-Solving, Team Collaboration, Adaptability, Quick Learning

Internship

- **InfoTech Clinic | Certificate** Jun '25 – Jul '25
  Android App Development Intern
  - Engineered a Java-based Android application for digital medical record management, supporting offline CRUD operations and multi-profile management.
  - Implemented report management, including report upload, structured medical details and local SQLite storage.
  - Collaborated with a 5-member team to integrate features, debug issues, and improve overall usability.

  Tech Stack: Java, SQLite, Android Studio, XML

Projects

- **Apt.share: Apartment Resource Sharing Platform | GitHub** Jul '26 – Present
  - Designed a full-stack MERN platform enabling verified residents to lend and borrow household resources via community-based access control, OTP authentication, and real-time communication.
  - Applied DSA concepts in booking management, contributor rankings, and resource recommendations.
  - Containerized the application with Docker and Docker Compose, configured GitHub Actions CI, and connected the platform to MongoDB Atlas for cloud-ready deployment.

  Tech Stack: React.js, Tailwind CSS, Node.js, Express.js, Socket.IO, Docker

- **SubEval: Subjective Assessment and Evaluation Platform | GitHub**. Jun '25 – Aug '25
  - Built a full-stack AI-assisted assessment platform for subjective examinations, enabling teachers to create rubric-based evaluations and students to submit descriptive answers with persistent evaluation records.
  - Integrated Gemini API with rubric-based evaluation, confidence scoring, and optional reference answers.
  - Enabled human-in-the-loop review, allowing teachers to validate and modify AI-generated scores, finalize evaluations, and access student performance analytics through role-based dashboards.

  Tech Stack: React.js, Node.js, Express.js, MongoDB, Gemini API

- **SafeHopp: Travel Safety Bot | Live** Apr '25 – Jun '25
  - Developed a responsive, AI-powered travel safety chatbot delivering location-aware safety reports and guidance using the Gemini API.
  - Used Leaflet.js for interactive risk-zone mapping and destination-based queries with real-time location data.
  - Empowered travelers to quickly assess destination risk and emergency contacts from a single interface.

  Tech Stack: HTML, Tailwind CSS, JavaScript, Gemini API

Training

- **Full Stack (MERN) with Gen AI – W3Grads** Jun '25 – Jul '25
  - Learned to build end-to-end web applications using React.js, Node.js, Express.js and MongoDB Atlas.
  - Gained experience in REST API development, database integration, and frontend-backend communication.
  - Explored Gen AI integration by incorporating AI APIs into web application workflows.

Certificates

- SQL (Basic) | HackerRank Sep '26
- Oracle Data Platform 2025 Certified Foundations Associate | Oracle May '26

Achievements

- Earned 5-star C++ Programming Badge on HackerRank Jan '26
- Ranked top 30/500+ teams in Code-e-Manipal Hackathon, Manipal University, Jaipur Mar '25

Education

- **Lovely Professional University** Phagwara, Punjab
  Bachelor of Technology - Computer Science and Engineering; **CGPA: 8.51** Aug '23 - Present
- **National Institute of Open Schooling** Noida, Uttar Pradesh
  Intermediate; **Percentage: 75** Apr '22 - Mar '23
- **Bishop Scott Girls School** Patna, Bihar
  Matriculation; **Percentage: 94** Apr '18 - Mar '19
